Airport of Ioannina

Client: TOMI S.A.

Cost Estimate: 3,167,000 EUR

Full architectural design, based on the Civil Aviation Authority's proposal for the Airport's new Masterplan. The design concerns the Extension and Rearrangement of the Existing Terminal Building, and includes the demolition of an older part of the Building, the construction of a new Central section and the Rearrangement of the existing "Arrivals" and "Departures" Areas.
