Stavros Niarchos Foundation Health Initiative

Client: RENZO PIANO BUILDING WORKSHOP (RPBW)

Brief Description and scope of work:
BETAPLAN provides services as the Executive Architect and Architect of Records with Renzo Piano Building (RPBW) being the Design Architect, for the full design, tender documentation and construction administration of the three hospitals in Komotini, Thessaloniki, and Sparta.

Program:

The SNF Health Initiative's infrastructure projects include among other sub-projects, the design, construction and outfitting of three new state-of-the-art hospitals in Komotini, Thessaloniki, and Sparta. The estimated time of construction completion is the end of 2025.
More specifically these hospitals are:
o Stavros Niarchos Foundation General Hospital of Komotini
A 165-bed (180-clinical positions) capacity general hospital of approx. 30.000m2
developed in a site of approx. 90.000m2
o Stavros Niarchos Foundation University Paediatric Hospital of Thessaloniki
A 243-bed (247-clinical positions) capacity University Paediatric hospital
of approx. 45.000m2 in a site of 80.000m2
o Stavros Niarchos Foundation General Hospital of Sparta
A 146-bed (164-clinical positions) capacity general hospital of approx. 21.000m2
developed in a site of approx. 45.000m2
