Olympic Tennis Centre

Client: Ministry of Culture - General Secretariat for Sports
Cost Estimate: EUR 31,930,000

Participation in a Competition under a turn-key procedure with contractors "AKTOR". The architectural design retained the basic principles established by the Ministry's preliminary design & was executed in collaboration with British Consultants "ARUP ASSOCIATES" who designed the steel canopy of the Central Field. The design concerned the upgrading & refurbishment of the Olympic Tennis Centre at the Athens Olympic Athletics Complex within the framework of the Athens 2004 Olympic Games & included the development of a new Stadium with a 10,000-seat capacity, refurbishment of the existing fields & rearrangement of access facilities to the other parts of the Athletics Complex.
