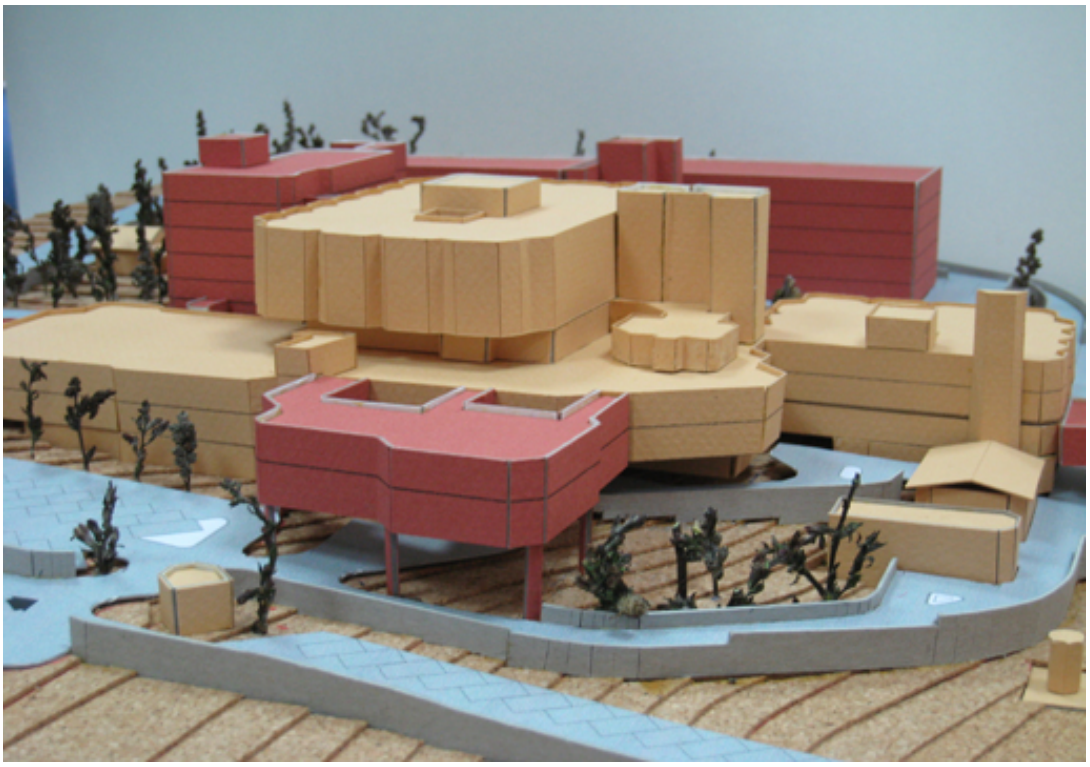
County General Hospital of Arta: Master Plan



Client: Regional Health Authority of Epirus
Cost estimate: EUR 30,811,150

Master Plan for the General Hospital of Arta with a 215-bed capacity. The Master Plan proposals envisaged substantial building extensions and rearrangements for the operational upgrade of the Hospital.

The subsequent Architectural Outline Design concerned some of the planned extensions, namely, extensions to 3 buildings and to the following operational departments: Operating Theatre complex, Laboratory and MRI Complex, as well as additional buildings for the accommodation of the Hemodialysis Unit and Blood Donation Department, a Nursery and a restaurant, Emergency Department, Blood Bank, Endoscopy Department and 2 Ward Units. Also rearrangement of the Outpatients, Physiotherapy and Ultrasound Departments.
